

DID YOU KNOW.....

- That water based house paint is considered Hazardous Material when wet, but can be put into your normal garbage container if the lids are taken off and it's dried out, or, you can solidify the material with dirt or kitty litter.
- That if you have a Waste Management green plastic 96 gallon container you are allowed to put seven extra 32 gallon bags of trash out on your normal service day.
- The Lockwood Landfill will take recyclable items free of charge during normal business hours, which are 07:00am to 04:30pm seven days a week. Included in these items are white metals such as washers, dryers and other non-CFC containing metal appliances.
- That the Lockwood Landfill will take one residential refrigerator for free. There is a \$25.00 charge for CFC removal for commercial or non Washoe County residents.
- That the Lockwood Landfill will also take bulky items, one per household, such as mattresses and sofas, for free at any time during normal business hours.
- That we charge by the rated capacity of a vehicle at all of our facilities, so always bring a full load.
- The Lockwood Landfill/Transfer Stations will take only one computer monitor or television per residential customer at normal trash rates.
- That we operate our residential pick up routes Monday through Friday and work all Holidays. All containers must be curbside on your scheduled day by 07:00am.
- For safety purposes our drivers will only pick up the right/passenger side of the street at a time.
- The Transfer Stations will take 2 automotive batteries, 5 quarts of used uncontaminated motor oil and 2 gallons of anti freeze for free per residential customer.
- The Lockwood Landfill will take 2 automotive batteries; 10 quarts of used uncontaminated motor oil and up to 3 gallons of anti freeze for free per residential customer.
- We work during inclement weather; however, in order to service your container we need to have access to it. It needs to be clear of snow and the area around it has to be clear so we can move the container.
